

Pulp Clamps

Pulp Clamp - There is a variety of lift truck attachments obtainable in order to make the equipment more helpful. A snowplow attachment can be mounted to the front of the lift truck. A scoop bucket can be useful if the job requires moving sand, gravel, soil or snow. A double block handler allows the forklift operator to lift carry a couple of loads and then pile them side-by-side. Numerous of these attachments are really excellent for light to medium tasks.

Another lift truck accessory is the package lift clamp, that could lift and transfer really heavy pallets. In addition, pallet crane forks could be utilized in order to lift and transfer pallets with an overhead crane. A drum clamp accessory is useful for transporting really heavy drums from one place to another without having to utilize a pallet. Lift truck mounted hoppers permit materials to be moved and dumped without having to do it manually. These hoppers when the bumper is released are self dumping.

There are even attachments obtainable which can transform the lift truck right into a commercial broom or mop. Such attachments are perfect for cleaning boat docks, warehouse floors and parking lots. Forklift mounted platforms come outfitted with dual entry doors and can be attached so as to move employees from one site to another. The mounted platform attachment is great for reaching places which can be hard to access, especially if you have merchandise or stuff stored in out of the way places or way up high.

Attachments can be a really useful piece of equipment when put in a lift truck, changing a regular lift truck right into a mobile hoist unit. It's most helpful when transferring unsteady or tricky loads. This attachment could either be mounted on the carriage itself, telescopic, or be fixed or forklift mounted.
