

TCM Forklift Part

TCM Forklift Part - In the international business of material handling, forklifts play a major part for transporting industrial goods. Originally innovated as industrial vehicles in the 1930s in America, lift trucks gained recognition after WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these equipment spread worldwide.

Initially established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first lift truck. Through the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the business. TCM began building forklift manufacturing sites outside of Japan in the 1980s and is presently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes several models of industrial forklifts with over 50 years of accumulated technology and expertise, making their products recognized and used all over the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading company.
